

SkateMaster™

SportMaster®
SPORT SURFACES

SkateMaster™ Surfacing System

A 100% acrylic, specialized surfacing system for inline roller hockey, skateboarding, or high traffic recreational areas where additional durability is desired.

Uses:

- Rollerblading, Skateboarding, and Other Roller Sports
- Shuffleboard Courts
- Playgrounds, Game Courts, Basketball, etc.
- Multipurpose or Heavy Use Areas

The SkateMaster System can be applied on asphalt, concrete, or existing acrylic surfaces.

SkateMaster is designed to provide a durable surface for inline skating and roller hockey. From casual skating to the rigors of competitive inline hockey, SkateMaster™ provides the optimum surface.

The SkateMaster System is comprised of the following products:

Acrylic Resurfacer - (Neutral)™

(1-2 coats) to fill voids in pavement and provide texture to ensure thorough coverage of the SkateMaster Coating.

SkateMaster™

(2-3 coats) SkateMaster comes in a neutral colored base, and is mixed with ColorPlus Pigment Dispersion to achieve any of the standard ColorPlus colors.

SkateMaster

Thickness:
Approx. 40-45 mils

1 Coat - Acrylic Resurfacer

2 Coats - SkateMaster

Striping:

Stripe Rite - (For Sharp Lines)

Line Primer is applied between masking tape to prevent "bleed under" from occurring.

SportMaster Line Paint

Completes the project with superior hiding and vibrant lines. SportMaster Line Paint available in textured and non-textured formulas.

SkateMaster can also be used as a multipurpose surface for sport and recreational areas. The surface texture can be adjusted by mixing silica sand into SkateMaster for specific activities.
